

**INFORMATION TECHNOLOGY AND COMMUNICATION  
COMMITTEE MEETING**

**THURSDAY, MAY 4, 2017  
5:00 P.M.  
MINUTES**

---

**MEMBERS PRESENT:** Commissioners Wayne Ridge, Brian Droscha, Christine Barnes, Jeanne Pearl-Wright, Howard Spence, Jane Whitacre and Heather Wood

**ALSO PRESENT:** Commissioner Blake Mulder, Treasurer Bob Robinson, Jeff Parshall and John Fuentes

The May 4, 2017 regular meeting of the Information Technology and Communication Committee was called to order at 5:55 p.m. by Chairperson Ridge.

Commissioner Barnes moved to approve the minutes of the March 2, 2017 meeting, as presented. Commissioner Droscha seconded. Motion carried.

A compilation of the technology requests submitted by departments and officials for the 2017/18 Budget was distributed as information. Controller Fuentes indicated that the information presented did not represent a recommendation at this time, and was being provided to demonstrate the requests. Staff will review the requests and present a recommendation for inclusion in the 2017/18 budget at the next regular meeting.

County Treasurer Bob Robinson was present to discuss a new technology initiative he will be implementing to increase efficiency in the foreclosure inspection process. Using the Foreclosure Fund he is acquiring a drone to aid in the performance of the statutory property inspections when necessary for safety and efficiency purposes. As part of the acquisition, the Treasurer is interested in partnering with Technology Services to utilize the technology for other identified departmental applications. The Treasurer is working with the Controller and Technology Services to ensure the necessary federal and insurance regulations are complied with prior to implementation. The Controller and Technology Services will be developing a policy for consideration prior to the County pilot being initiated, for identified, approved department applications. The Committee discussed concerns related to the use of this technology related to privacy, civil liberties and liability. A pilot for County department applications will not be initiated prior to the approval of a governing policy by the Board of Commissioners.

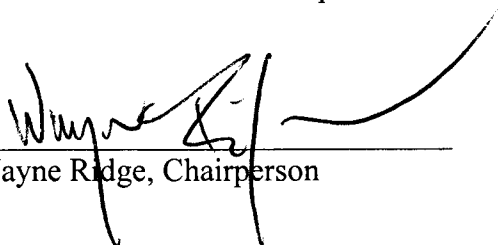

It was reported that the Sheriff's Office will be completing field evaluations of body-worn cameras for acquisition through the approved grant by May 26, 2017, in order to be able to complete the acquisition within the grant period. The department is testing two vendor solutions, including one that utilizes cloud-based storage and functionality that may alleviate concerns expressed by the Prosecuting Attorney regarding the creation of physical disks. This possible solution will be discussed with the Prosecuting Attorney as well.

It was reported that the Eaton County Farm Bureau agreed to the terms required by the County to acquire its GIS parcel data for the production of a plat book. The data is being provided to Farm Bureau. An estimate of the availability of the printed plat book is unknown at this time.

It was reported that Technology Services had withdrawn its request for additional funding for the graphics design intern to perform the website re-design on the upgraded open source platform. The website re-design will occur within existing resources as staff time and expertise permits.

Chairperson Ridge adjourned the meeting at 6:40 p.m.

The next regularly scheduled meeting of the Information Technology and Communication Committee will be held on Thursday, June 1, 2017, at 5:00 p.m. or ten minutes following the adjournment of the Public Safety Committee meeting, whichever is later, in the Sheriff's Training Room located at 1025 Independence Blvd., Charlotte, MI 48813.

Wayne Ridge, Chairperson

## Eaton County Technology Services 2017/18 Computer Fund Expense Budget

### Expenses Necessary to Maintain Operations

Department/Project	Amount Requested	Amount Approved
Annual Payment for Network Rebuild Project (5 of 5)	\$ 347,000.00	
Contractual Services (298.863.800.000)	\$ 132,600.00	
Smartnet Contracts	\$ 10,000.00	
Technical Training for InfoSys Staff	\$ 20,000.00	
Software Maintenance (ArcGIS, Anti-Virus, Iprism, etc.)	\$ 35,000.00	
Hardware Service and Support (SAN, SEI, AS/400, etc.)	\$ 20,000.00	
Software Service and Support for AS/400s (only LOGOS)	\$ 4,500.00	
Domain SSL Certificates (eatoncounty.org; apps.eatoncounty.org)	\$ 5,000.00	
Replacement of Electronic Hardware Outside of Budget Cycle	\$ 18,000.00	
<b>Total to Maintain Operations (from General Fund)</b>	<b>\$ 592,100.00</b>
