#### SHERIFF'S OFFICE UPDATE

Sheriff Reich reported August highlights. He also reported the findings of a recent Michigan Department of Corrections (MDOC) jail inspection in which the jail was found to have inadequate staffing to perform ancillary functions, according to MDOC Administrative Rules. Since receiving the report, adjustments have been made and a

response has been sent to MDOC. The facility will be reinspected in the near future, and no problems are foreseen.

Sheriff Reich reported that the Sheriff's Office has been working very hard with Windsor Township who expressed interest in having a Deputy to patrol the Township 40 hours a week. Sheriff Reich's concern is that entering into a contract with Windsor Township without an increase in Deputy positions would adversely impact out-County Deputy patrols. Sheriff Reich sought consensus of the committee to recommend an increase in personnel to the Ways and Means Committee. Discussion held. Commissioner Spence made a motion to send a recommendation to the Ways and Means Committee to increase of a Deputy position to support the Windsor Township contract. Chairman Commissioner Austin seconded the motion. Motion carried.

## MONTHLY REPORTS

Prisoner Boarding Report – Controller Fuentes reported that through August \$297,000 has been billed through WRAP, and revenues are being received in a timely manner.

Jail Census and Reimbursement Report – Controller Fuentes reported that for the month of August the jail averaged 74 percent of jail capacity, including the MDOC and WRAP inmates. The number of Parole Violators remained consistent.

Overtime Report – Controller Fuentes reported that through August 31<sup>st</sup> overall for general fund total is currently a \$50,000 favorable variance, and there is a favorable variance in the total salary line-item budgets for the fiscal year.

Court Security Report – There were no unusual occurrences.

## CENTRAL DISPATCH UPDATE

Director Armitage reported that call volume was high for the month of August. He reported that Apple IOS 12 will be launched mid to late-September and will provide supplemental information on the location of a cellular customer. Rapid SOS is active and SMART 9-1-1 now has an app that can be downloaded for free from the Apple App Store. Grand Ledge is now on RAVE alerts will be sending out their own.

Tower Development Agreement – City of Charlotte

Director Armitage reported that the radio tower at the County site needs to be replaced as part of the radio project. The County has met all of the city's requirements and been approved. The city has requested a Development Agreement be prepared and filed with the Register of Deeds. Commissioner Droscha made a motion to send the Tower Development Agreement to the Board of Commissioners for approval. Commissioner Whitacre seconded the motion. Motion carried.

## Memorandum of Agreement – State of Michigan

Director Armitage reported on the need to have a physical location readily available to serve as a back-up site in the event an evacuation of Eaton County Central Dispatch became necessary. The Secondary Complex meets this need, can withstand a natural disaster, is NEXGEN 9-1-1 compatible, and is available at no cost to the County. A proposed Memorandum of Agreement was presented and discussed. The proposed language has been submitted to the State for its approval. Commissioner Whitacre made a motion to recommend approval of the Memorandum of Agreement between the State and County to the Board of Commissioners, subject to the approval of the language by the State. Commissioner Droscha seconded the motion. Motion carried.

## EMERGENCY SERVICES UPDATE

Ryan Wilkinson, Eaton County Emergency Services Manager, introduced himself to the Committee.

## MISCELLANEOUS

Controller Fuentes reported that the current WRAP contract was recently extended through September 30, 2019. MDOC requested an updated resolution approving the continuation of the agreement through the end of September 2019. Commissioner Spence made a motion to recommend approval of a Resolution to the Board of Commissioners. Commissioner Droscha seconded the motion. Motion carried.

Community Corrections Advisory Board – Controller Fuentes reported that Grand Ledge Chief of Police Martin Underhill recently retired and was the local Police Chief representative on the Community Corrections Advisory Board. Judge Cunningham chairs the Advisory Board and has recommended Charlotte Chief of Police Lisa Sherman fill the vacancy left by Chief Underhill. Commissioner Whitacre recommended approval of Chief Sherman's appointment to the Community Corrections Advisory Board by the Board of Commissioners. Commissioner Pearl-Wright seconded the motion. Motion carried.

Chief Deputy Morris informed the committee that because the number of fatal accidents has decreased in Eaton County, the Office of Highway Safety Planning informed the Sheriff's Office that the funding of the Drunk Driving and Seatbelt Enforcement grants will not be renewed.

DEVELOPMENT AGREEMENT BETWEEN EATON COUNTY, MICHIGAN AND THE CITY OF CHARLOTTE, MICHIGAN FOR THE CONSTRUCTION OF A COMMUNICATIONS TOWER

This development agreement establishes standards and other provisions applicable to, governing, and vesting in a development and mitigation of real property located at 911 Courthouse Drive (the "site"), Charlotte (Parcel ID# 23-200-012-100-080-00), as described with the following description:

COM 543 FT W OF N 1/4 COR SEC. 12, S TO NELY LINE FORMER R.R. R/W, NWLY ALONG R/W TO N SEC. LINE, E 538.32 FT TO BEG. SEC. 12, T2N,R5W, CITY OF CHARLOTTE. 1996

Eaton County is in the process of constructing a countywide public safety communications system that will provide improved emergency communications for all public safety agencies in the county. The design of this project includes a tower located on the site. It has been determined by structural engineers that the current 180 foot tower at that location is not able to support the necessary equipment for the new system. The County is proposing the construction of a new 180 foot tower on the site to support the equipment needs of the new system. As a result during the construction and transition period two towers will be required to be located on the site until the County transition from its current radio system to the new system is complete and operational.

Under the provisions of this development agreement the County agrees to the following:

1. At the point when the current public safety radio system is no longer being used, any necessary remaining equipment will be removed from the current tower and moved to the new proposed communication tower.
2. The current communications tower will be removed within 180 days of the last piece of active radio equipment being removed from it.
3. The proposed tower will be removed within 180 days of all active equipment on it being abandoned.
