Eaton County Road Commission maintenance garage and material storage

SITE MAP

DELTA TOWNSHIP GARAGE
3102 SANDERS ROAD
LANSING, MI 48917

COMPREHENSIVE FACILITY ASSESSMENT

Comprehensive inspections will be conducted by the Certified Storm Water Operator on 6 month intervals for compliance with this SWPPP.

Comprehensive site inspections will include non-structural controls, good housekeeping practices, and spill prevention and control measures as outlined in the SWPPP. The inspections will also include an examination of the property, storm water collection system, and facility outfalls for evidence of non-storm water discharges. A report of the comprehensive site inspection results will be prepared and retained for three years. The report will identify any incidents of non-compliance with the SWPPP or will include a certification that the facility is in compliance with this permit.

STRUCTURAL CONTROLS (BMP's)

The BMP's for the site are as shown on the location map, and are as follows:

DESCRIPTION	LOCATION	SIGNIFICANT MATERIALS TO BE MANAGED
Catchbasins	Around the site	Material stockpiles
Detention pond	Northeast corner of site	Sediment from site, runoff from salt barn
