[DEBT SERVICE REQUIREMENTS](#)

**STANDARD
& POOR'S**

**EATON COUNTY
CREDIT RATING
AA-**

Cost Per Resident

Cost per resident is a measure of how much it costs to operate the County on a per-person basis, and how effectively the County operates. The lower the cost per resident, the more efficient the County is.

Net Debt Per Capita

Eaton County issues long-term debt for large capital projects, such as the Jail and Community Dental Clinic. Its debt burden is the cost of repaying this debt.

Debt Margin as a % of SEV

The State Constitution (Article VII, Section 6) states that “No county shall incur any indebtedness which shall increase its total debt beyond 10% of its assessed valuation.” The lower the debt margin, the more financially healthy a community is.

SEV = State Equalized Value

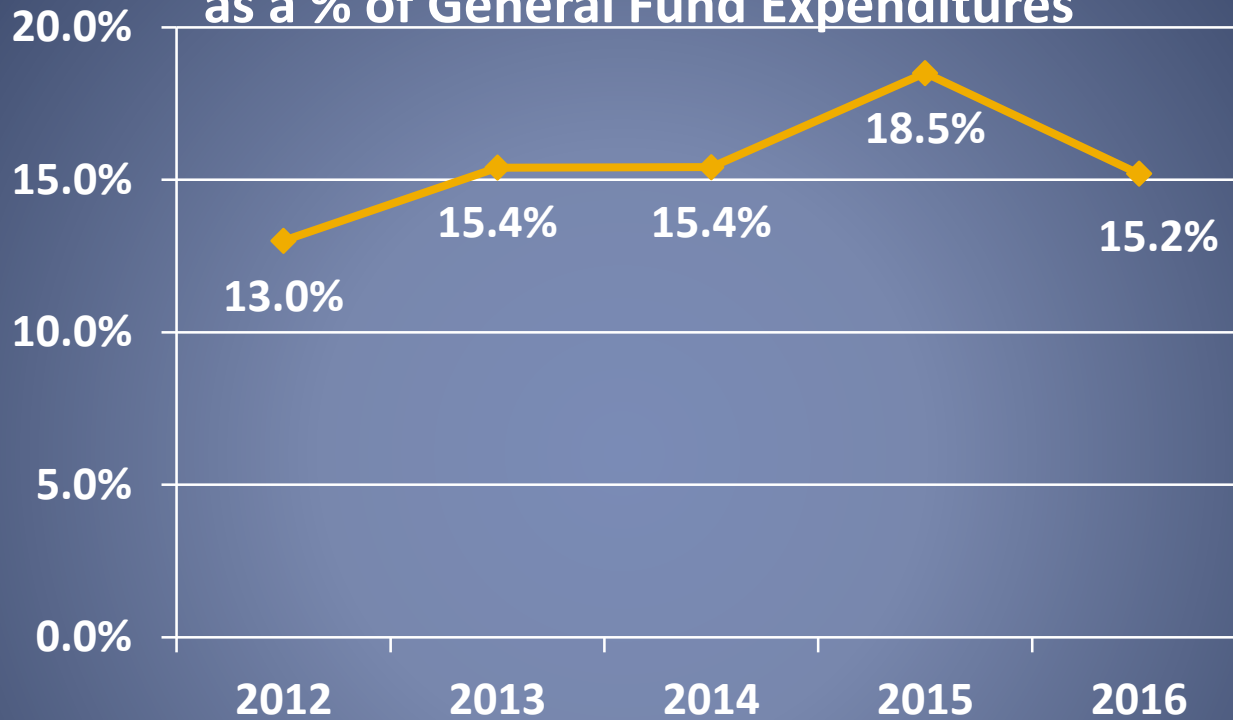

Eaton County Taxable Value

The value of property directly relates to the amount of revenues a local government receives through property taxes. It also is an indicator of economic vitality.

STV = State Taxable Value

Undesignated/Unassigned Fund Balance as a % of General Fund Expenditures

The financial health of a community is important to provide and maintain services. The Fund Balance is one method of measuring financial health, and is a strong contributor to the credit rating of an organization.

Defined Benefit Pensions Funded %

All eligible Eaton County employees are covered by a defined benefit (DB) pension plan. This chart represents the funding level of all remaining DB plans. A funding level close to 100% is desirable because it drives down the annual required contribution.

Employees per 1000 Residents

Another measure of efficiency is the number of employees per 1000 residents. The lower the ratio of employees per 1000 residents, the more efficient the County is in providing services to the community.

Retiree Health Funded %

Eaton County previously offered a retiree health insurance benefit. The benefit was eliminated for all employees hired after January 1, 2007, (April 1, 2007 in the case of certain collective bargaining agreements), and replaced with a retiree health insurance account benefit for employees hired after the effective date(s). The County and Employee contribute an amount equal to 2% of the employee salary into these accounts. The County continues to fund the remaining liability for future benefits on a modified actuarial basis.

Projected Budget Report

Eaton County Debt

The following schedule details the outstanding long-term debt of Eaton County as of September 30, 2016. The schedule also details the total debt requirements for each of the next five years, and the remaining requirements, in aggregate. These liabilities will be retired with revenues generated from sources of revenue other than property taxes.

Drain Bonds and Notes will be retired from revenue derived from special assessments, assessed by the Eaton County Drain Commissioner against the property owners within each individual drainage district.

Department of Public Works (DPW) bonds will be retired with revenue derived from lease agreements entered into with each local unit, proceeds from the lease correspond with the debt maturities, which in turn pay the debt.

Michigan Transportation Fund (MTF) Bonds issued by the Road Commission will be retired utilizing funds of the Road Commission.

Bonds issued to re-construct and expand the Medical Care Facility will be retired through a combination of the voter-authorized millage and revenues of the Medical Care Facility.

Bonds issued by the Building Authority to expand the Eaton County Jail will be retired utilizing revenue generated from the voter-authorized millage.

Bonds issued by the Building Authority to construct the Community Dental Clinic will be retired with revenue derived from a lease agreements entered into with the non-profit clinic operator, proceeds from the lease correspond with the debt maturities, which in turn pay the debt.

The Installment Purchase Agreement IT Infrastructure will be retired with County General Fund revenues.

The Installment Purchase Agreements for 911 Consoles and the Jail Security System will be retired with revenue generated from the voter-authorized millage.
