## **ID E N T I T Y T H E F T V I C T I M I N F O R M A T I O N F O R M**

*Please complete this form and return it to the police agency as soon as possible, or bring it to the meeting with the investigator assigned to your case. The information you provide will be used to understand what occurred, organize the investigative case, determine where evidence might be found, develop a theory of how the identity crime occurred, and determine what financial institutions should be contacted in the course of the investigation. Identity theft cases require the assistance of all victims involved, as accurate personal account information is only known by the victim, it is impossible for investigators to determine the legitimacy of accounts without their assistance. In many cases, the investigation cannot not begin until the investigator receives information requested within this form.*

## TIPS FOR PREVENTING ID THEFT:

Never give out identifying information in response to unsolicited offers by phone, mail, internet, or in person unless you initiate the contact.  
Order & review your credit report yearly.  
Review financial and credit card statements monthly for unauthorized activity.  
Shred or tear up discarded paperwork containing personal identifiers (i.e. receipts, insurance forms, bank & credit card statements, cash advance checks) before discarding.  
Protect your mail by removing it from your mailbox as soon as possible. Place your mail delivery on hold at the post office while you're away on vacation.  
Be aware of where your personal identification is kept and who has access to it – at work and at home.  
Protect your wallet/purse and don't leave them unattended.  
Limit the number of credit cards carried, and don't carry your PIN or social security card in your wallet/purse.  
Treat checkbooks, ATM cards, credit cards & credit card offers as if they were cash. Cancel unneeded credit cards.  
Don't put your social security number, phone number or date of birth on your checks.  
When using the internet to make purchases, look for the "s" in the address (https) to ensure a secure site.
